Picket Tobacco Warehouse, HAYNES & GRAHAM, Proprietors, CORNER OF EIGHTH AND MAIN STREETS, Louisville, Ky.

THE above fire proof Warehouse is much enlarged and is I doing a fine business. Cur receiptanave been upwards of 10,000 hogsheads since the opening of our house—lat of October, 1851—and our sailes have been very satisfactory. Our mode of solling is as follows, viz: Every hogshead liput up and sold on its own merits, andafter the sale it is with the owner to confirm or re exit the same, all its pleasure. One Dodar per hogshead coversall charges to the owner, after its arrival at the warehouse; and hereceives his money at the warehouse office as soon as the bills can be made out. We are prepared to pay all charges on Tobacco causigned to us, and and staubject to the instructions of the owner.

This warehouse is now doing the most extensive tusiness of any Tobacco warehouse in Kentneky, and we piedre ourselves to attend stacity and promptly to all Tobacco entrasted to our care; and we refer to our past year's bus inners merchants, shippers, and planters generally.

Very respectfully. Very respectfully, HAVNES & GRAHAM, Proprietors.

Purposes.

Physicians, brangists and invalids have often experienced the almost impossibility of procuring a pure wine or liquor in the country, when it becomes necessary to use it for the restoration or health. The arrangements of the Græfenburg Company for the purpose of guarding against imposition and adulteration, both in Europe and this country, are complete, and any bothe bearing their seal, may be regarded as unquestionably pure and unadulterated. THE undersigned having procured the exclusive right to this State, effects forsale, First Premi um Machine; MANNY'S PATENT ADJUSTABLE NOGTHERN BLUNGS REALER AND MOWER.

Awarded the first promine for moving, and the second for reaping, at the New York, State Fair, in the great trial at Geneva and New York, is July, in competition with eleven other Machines; awarded a Silver Medials the Ohio State Fair for the best reaner and more and received the history that reasers and more read more received the history. for the best reaper and mover; and received the highes award at the Vermont and Michigan State Fairs, for the best

respite and mowing machine.

The true merit of this Machine has given it a great triumph over all others, and being a perfect combination of a Resper and Mower, it comes to the farmer with double value; med it is clearly demonstrated to be the only successful combination of Resper and Mower. is clearly demonstrated to be the only successful combination of Meaper and Mower.

As a mowerfit is simple and as perfect as though constructed on pressly for mowing, and as a Reaper it is as simple and perfect as if constructed for reaping only:—all the change that is necessary from one plan to the other, is to insert we remove a loose platform.

With a pair of houses, one driver, the Machine will mow from 15 to 20 acres per day, depending on the ground. It will reap the same quantity requiring two hands, in ranging over broken ground. The driver can lower or elevate as 1c may choose.

The price of the Machine, delivered at Nashvilled, \$230, or they will, if ordered, be delivered at Memphis, or any point on the Mississippi, between there and Mill's Point, or at any point on Camberland river, between the Sate line and Nashville, or at Canttansoga, or at any point between there and Nashville, on the Railroad, at the same price. They are manufactured in New York; and as it will require time to bring them on, all who wish to precure one for the next reason, would do well to address me as soon as convenient, at Nashville.

J. H. Burrow's Patent Plantation CORV MILL. This Mill differs from all others in the construction of the upper or Running Mone, which is composed of French Burr Blocks, enclosed in a cast from case, which forms the back and hoop of the Stone with a Cast Iron Eye, or Bush, than is of greater external diameter at the bottom that at the top, which is secured to the back by four botts, so that every block is in the form of a dove tail, which gives greater strength to a Stone than anyother method which is required in small mills, where the stone is run with great speed, and becomes dangerons if not strongly made. It also gives my weight to a stone of small diameter that is required without having it thick or high, that makes it top beavy.

This mill is a square frame made of wood or cast iron, in the farm of a back, with Bridge-free, Spindle Balance, king Briver, and Regulating Screw, and grinds unon the same principle as a large mill, differing only in the Runner Stone; this being of great weight nonables it to grind nearer the conternagreater quantity of grean with less power than any other until now in use. This mill is portable, and may be attached to steam, which, loves or band power.

ALSO, all stores of Erench Earr Mill Shames, manufactured on the same principle.

which be obtained betters Patent in 1842. For all infringements the purchaser will be held responsible for the right of using.

These Mills do not require a Millight to set them apt and all that the necessary to but them imperation, as so attach a hard to the pulley on the spindle, with a dram semiciously farge to run a twenty-four neb Mill 240 revolutions per minute, attached to Gin, Steam, or Water Power. By the steady application of two horse power the Mill will grind as to 8 bushels per hour of good menti and will grind wheat as well as corn. The initity inch mill, if put to its fullest appead, will grind from ten to iffect bushels per hour.

These mills are warranted to be in every respect as recommended.

These mills are warranted to be in every respect as recommended.

Disc vious you Using.—Place your mill about 26 fact from the Driving Pulley in a berel position, make the belt of 1 after six or eight inches wide. Give the Stoneste revolutions a minute with the sun. Keep the neck and step of the spindle well cited. Place the star on the back of the Running Stone, in the same way as the Cross on the Briver, that is, the way they are trimmed to ran.

DR. ARNOLD'S UNION PILLS.

Grants Hill, Tenn., January 19, 1852.

Dr. Arnold—Dran Sur.—I consider it but an act of justice to yourself and the community, to state to you the very great benefit! I have received from the use of your Union Pills. Having been for quita a number of years, greatly troubled with dispepsia, and constipation of the boweis; at times alterming me greatly. I used every other remedy, almost that! I ever read or head of for the disease, all without the least beneficial effect. I had almost come to the belief, that it was useless to try any more; as I labored under great debility, and my atomach was greatly injured by taking the different Pills, medicine, &c.; but on hearing my neighbors speak so frequently of the beneficial effects of your Union Pills, I concluded to give them a trial, and bought a fifty cents vial, and commenced their use. From the lirst dose of one Pill I was satisfied it was the medicine for me. I have not yet used quite one vial, and can now say to you with the utmost pleasure, that I have not for the last ten years felt as well, or enjoyed such good health, as I have since commencing the use of your Pills. I would take no sum for the good lasse Pills have done me, and almost every branch of my family have used them with the same happy effect. At times some of the negroes have had symptoms of fever—at the first compleant I have given them one or two Pills, and mover had to repeat the dose but once, which effected a care. Your other medicines used by my family, have had the most happy effect. I shall always keep a supply of your Pills on hand, and I think that no coe, laboring as I have under great debility and dyspepsia, with all the evilcents quences, but what would, after a use of your medicines, join use in saying the same of them.

Respectfully DR. ARNOLD'S UNION PILLS.

Mesors, Stown & Mr. 19.—Gentlemen: The Hebrew Plaster is becoming popular in this section. There is a lady in this county who says she would not be without this Plaster for five hundred indians a year. She was afflicted for some time with an enlargement of the spleen, which gave her agreat deal of pain. The swelling and pain had extended up nearly to the arm-pat, and occasionally she could searcely breather. She was confined for a considerable time, during which she was attended by some of our best devices as

which she was attended by some of our best physicians, but they gave her no relief. She procured a look of the Re-brow Plaster, and it relieved her almost immidiately, and now the keeps a supviy of it on hand constantly. These facts you are at liberty to use as you think proper—they are substantially true.

Respectfully, yours, &c.

REAT CURE FOR DYSPEPSIA! - ANOTHER SCIE DR. J. S. HOUGHTON'S

THE TRUE DIGESTIVE FLUID, OR GASTRIC FUICE, PREPARED from Rennet, or the Fourth Stemach of the Ox, after the directions of Baron Liebig, the great Phy-siclogical Chemint, by J. S. Houghton, M. D., Philadelphia,

This is a truly wonderful remedy for Indigestion, Despensia, Jamedice, Liver Complaint, Consumption and Debuity, curing after Nature's own method, by Nature's own Agent, the Gastrie Juice.

Half a ten-speciful of Pepsin, infused in water, will digrest or dissolve five pounds of roast beef in about two hours, out of the stormech.

of the stormeh.

Pepsin is the clief element or digestrog principle of the Gastric June—the solvent of the food, the particing, preserving and stimulating agent of the stemachated intestines. It is extracted from the digestive strangeh of the Ox, thus forming an artificial digestive fluid precisely like the materal Gastric Jules in its chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and cells of Indigestion and Drospepsia are remerced just as there would be by a healthy stormeh. It is doing wonders for distriction, during cases of Debdity, thusdoing wonders for dyspeptics, during cases of Deblity, funa-ciation, Nervous Decline and Dyspeptic Consumption, sup-posed to be on the verge of the grave. The scentific evi-dence upon which it is based is in the highest degree curious and remarkable.

Scientific Evidence. llarus Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastrie Juice, may be prepared from the nucous membrane of the stomach of the Us, in which various articles of food, as meat and eggs, will be softened,

changed and digested, just in the same manner as they would be in the minan stormeth.

Dr. Preira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the same great fact, and describes the method of pagestance. There are few higher authorities than Dr. Priera.

Dr. Coulie, in his valuable writings on the "Paysinlogy of Digestion," chserves that "a dimination of the due quantity of the Gastric Juce is a prominent and alignwaling cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing close to fail, had recourse to the Gastric Juce, obtained from the Sonnachs of living animals, which proved completely successful."

Dr. Grahmo, author of the fanous works on "vegetable Diet," says: "It is a remarkable fact in Physiology, that the stomachs of animals, agerrated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestion process."

Dr. Simon's great work, the "Chemistry of Man," Lee & Blanchard, Philadelphia, 1846, pp. 261-27, 1849, "The discovery of Pepsin fortus a new era in the chemical history of digestion. From recent experiments we know that find is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastire Juice itself."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than lifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach, and from animals, are well-known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the netural digestion."

Dr. John W. Draper, Professor of Chemostry in the College of the University of New York, in his "Text Book of Chemistry," page 386, says: "It has been a question whether artificial digession could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every physician, and is used as a text-book in all the colleges is full of explance similar to the above, re-

Dr. Carpenter's standard work on Physiology, which is in the library of every physician, and is used as a text-book in all the colleges, is full of evidence similar to the above, re-specting the remarkable ligastive power of Pepsin, and the fact that it may be readily separated from the stomach of tha-calf or ox, and used for experiments in artificial digestion, or as a remody for diseases of the stomach, and deficient secre-tion of the finistric Junes.

All modern works on Chemistry, Materia Medica and Phy-siology and all goal Medical Dictionaries, describe the char-

siology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting acter and properties of Pepsin, and state many interesting details respecting it.

The first that an Artificial Digestive Fluid, or Gastrie Juice, perfectly resembling the natural fluid, may be readily pre-pared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspensia—so naturally does such a use suggestits of to the mind.

mind.

As a Dyspepsia Curer, Dr. Houghten's Pepsin has produced the most unrealises effects, in cases of thebility, Emacratico, Nervous Decline, and Dyspeptic Consumption. It is unpossible to give the details of cases in the limits of this advertisement; but anthenticated certificates have been given of more than two hundred remarkable cores, in Phindelphia, New York and Boston alone. These were tearly all
